

Table 4 – Year 12 comparison table

AUSTRALIAN 2010 YEAR 12 RESULTS COMPARISON TABLE

The aim of this table is to provide 2011 Year 12 applicants with information about the comparability of their results across Australia. The table relates to 2010 results and must be used as a guide only.

Since the late 1990s all Australian states and territories (except Queensland) have used a common measure to rank Year 12 students for university admission. The Australasian Conference of Tertiary Admission Centres, of which UAC is a member, agreed that, as of 2010, a common name for this measure would be adopted: the Australian Tertiary Admission Rank (ATAR).

As the table shows, an ATAR of 81.00 in any state or territory (except Queensland) is the same as an ATAR of 81.00 from any other state or territory (except Queensland).

This means that if you are completing your Year 12 studies in 2010 or later in one of these states or territories, and are planning to apply to institutions in other states or territories, your ATAR remains the same.

The table below shows how state and territory ranks equated to Queensland Overall Positions in 2010. This table can be used as a guide to how 2011 ATARs and Overall Positions will equate.

Read section 3.1 of this Guide for information about eligibility requirements and the bodies which provide the measures of overall achievement in each state of Australia.

Australian Tertiary Admission Rank (ATAR)	QLD Overall Position
99.95	1
99.50	1
99.00	1
98.50	2
98.00	2
97.50	2
97.00	3
96.50	3
96.00	3
95.50	3
95.00	4
94.00	4
93.00	5
92.00	5
91.00	6
90.00	6
89.00	6
88.00	7
87.00	7
86.00	8
85.00	8
84.00	8
83.00	9
82.00	9
81.00	10
80.00	10
75.00	12
70.00	14
65.00	16
60.00	18
55.00	19
50.00	21
45.00	23
40.00	24
35.00	25
30.00	25
