**UAC launches postgraduate admissions!**

While long established in the undergraduate application process, the Universities Admissions Centre (UAC) announces that applications to select postgraduate coursework programs are now available through it for semester 2, 2003 admissions.

Andrew Stanton, Director of UAC, expects that applicants will find it easier to lodge an application through UAC in the same manner as applicants for undergraduate courses. "Applicants will especially like the Apply-By-Web option, which makes applying much more convenient."

*Participating institutions are:*

Macquarie University  
University of New England  
University of Newcastle  
University of Technology, Sydney

These institutions are offering a limited number of their postgraduate coursework courses through UAC for Semester 2, 2003 admissions. However, it means that postgraduate applicants can still submit one application to UAC and include up to six different courses from a selection of around 150.

The *UAC 2003 Postgraduate Coursework Booklet*, containing details of those courses being offered and an application form, is now available from UAC and the participating institutions. The web site at [www.uac.edu.au/postgraduate.html](http://www.uac.edu.au/postgraduate.html) offers the same information, plus recent updates and allows you to link to the web sites of the participating institutions. You are also able to make your application online with Apply-By-Web.

For further information, visit the UAC postgraduate web site at [www.uac.edu.au/postgraduate.html](http://www.uac.edu.au/postgraduate.html) or call UAC on (02) 9752 0200.
